For Immediate Release

Right Angle Motor Cable Adapters

QCI-D15HD-R1

QCI-D15HD-R2

For those applications where you need to squeeze a NEMA 17 or NEMA 23 motor into a tight spot, QuickSilver Controls, Inc., now offers adapters for its 15 pin D shell motor connector (D15HD). The QCI-D15HD-R1 routes the cable towards the motor shaft and the QCI-D15HD-R2 routes the cable away from the shaft.

Both adapters provide a height profile of 1 inch. Screws are included to secure the adapter to the motor.

Both adapters are designed to handle the full horsepower of either a SilverNugget N2 or SilverDust D2 servo controller/driver including both motor and encoder feedback signals.

For more details, see the technical document "QCI-TD049 D15HD Rt Angle Adapter - QCI-D15HD-R1 -R2" on QuickSilver's website (www.QuickSilverControls.com).
