For immediate release

SilverDust IGF **A Simple Servo Controller/Driver for NEMA 11, 17 and 23** **High Torque, Direct Drive Servo Motors**

QuickSilver Controls, San Dimas CA, releases a simple servo controller/driver for its line of NEMA 11, 17 and 23 frame high torque, servo motors. The QuickSilver IGF features a compact DIN rail mountable design, 7 TTL level I/O (optional 24V), RS-232/485 serial interface, ASCII/Modbus protocol, and enough memory for several thousand lines of programming. Like the other SilverDust IG controller/drivers, the IGF comes with a built in regenerative braking circuit, single connector to motor, an on/off switch, and status LEDs.

List Price: \$570

See Datasheet QCI-DS021 SilverDust D2 IGF on our website for details.
