Reduction of Hazardous Substances (RoHS) Progress

9 Dec 2009

Almost our entire product line is available as RoHS. Only a few specialty low demand items have not yet been converted.

The following is a list of items that are RoHS compliant. If you have a special part number or need more clarification, please send us an email with the desired part number and we will let you know if and when the product will be available.

To specify RoHS compliance on a product, add "RoHS" to the end of the part number. This will insure you get the RoHS version of the part. Please note, we may substitute non-RoHS product with RoHS product. Call for pricing and availability.

NOTE:
